

Lindab **Airy**

Customised ventilation valve

Design and function in perfect harmony

Personalise your ventilation and improve your indoor climate at the same time. Lindab Airy is an attractive, slim, effective air valve with unlimited opportunities and the lowest sound power level on the market. Don't go down on style. Go Airy!

- Easy cleaning
- Low sound level
- Customised design
- Five front options
- Good indoor climate

**No visible dust,
very easy to clean!**

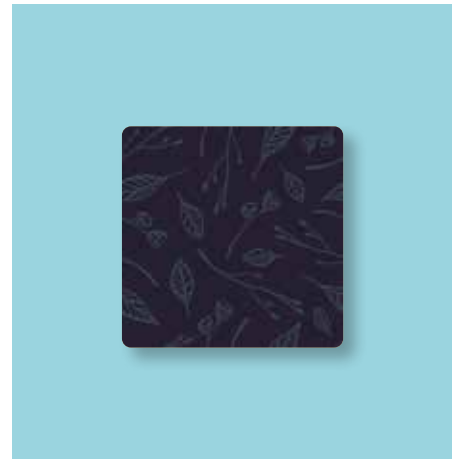

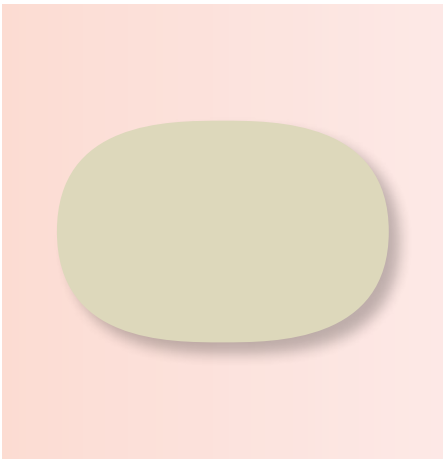

Colour, form and function

The design valve Lindab Airy suits all kinds of ventilation systems and the airflow is easily adjusted with one action. Don't compromise on design, when making decisions for a better indoor climate. Go Airy if only the best is good enough for your building.

- Simple grip fastening
- Fits in existing systems
- Extends 5-25 mm from the wall
- Snap on/off front
- Suitable for wall and ceiling mounting
- Suitable for supply and exhaust air

Standard valve 100

Easy installation

Lindab Airy fits all kinds of ventilation systems and suits both ceiling and wall installation. The smart fastening grip makes mounting quick. The airflow is easily adjusted with one simple action by turning the dims. Then you just click the front on. It's as simple as that!

Good Thinking

At Lindab, good thinking is a philosophy that guides us in everything we do. We have made it our mission to create a healthy indoor climate – and to simplify the construction of sustainable buildings. We do this by designing innovative products and solutions that are easy to use, as well as offering efficient availability and logistics. We are also working on ways to reduce our impact on our environment and climate. We do this by developing methods to produce our solutions using a minimum of energy and natural resources, and by reducing negative effects on the environment. We use steel in our products. It's one of few materials that can be recycled an infinite number of times without losing any of its properties. This means less carbon emissions in nature and less energy wasted.

We simplify construction
